

Hello Paul,

Please forgive the delay in responding. Other duties have taken priority, I will still have a more detailed response to yours, but it will still be a few days before I can get to it.

You have a great lab setup, and I'm particularly impressed with your ICOM IC700 receiver. I sit here with my lowly R8500. I guess for the price you paid for the 7000 you must have a lot of bells and whistles that mine doesn't have? You also beat me out on the HP8640B's. You have two, while I only have one. In a few days I'll have my lab cleaned up for a pic, which I'll send you when it's done.

Please be patient with me, Paul, I just turned 89 on Monday, but I'll be with you as soon as I can.

Walt
